

PLEASE KEEP YOUR DOG AWAY FROM THESE KILLERS!

This is a list of just some things that are dangerous for your dog as compiled by The Kennel Club.

There are a very wide variety of things in and around us that are poisonous to dogs, some in the home and even more in the garden.

If you think that your dog may have eaten, touched or inhaled something that they shouldn't have, contact your Vet for advice.

In some cases, an urgent visit to your Vet is needed but do NOT try to make your dog sick as this can cause other complications which may cause more harm to your dog.

IN THE KITCHEN

Onions / Raisins / Blue Cheese / Raw Bread Dough / Macadamia Nuts / Mouldy Foods / Oven Cleaners
Kettle De-scalers / Multi-purpose Cleaners / Dishwasher Tablets / Dishwasher Salt / Metal Polish
Detergents / Cooked Bones (not poisonous but can cause damage or death if swallowed)
Bleach (many instances come from dogs drinking recently treated toilet bowls or from buckets left around where Bleach has been used to clean floors).

AROUND THE HOUSE

Alcohol / Grapes / Xylitol (this a substance that is found in many Sugar Free Sweets) / Large amounts of Sugar or Sweets / Easter Eggs / Chocolate Coins / Advent Calendars Boxes of Chocolate put out on Christmas Day / Don't forget the wrapped presents left under the Christmas Tree! (Just because it's wrapped doesn't mean your dog can't smell it!) / (Chocolate should always be kept out of reach especially at Easter and Christmas).

MEDICINES

Ibuprofen and other Non-Steroidal Anti-inflammatory Drugs (NSAIDs) / Oral Contraceptives / Aspirin
Paracetamol / Sleeping Tablets / Psoriasis Cream / Antidepressants / Blood Pressure Medications
Diabetes Medications / Heart Medications.

IN THE GARDEN

Wild Mushrooms / Toadstools / Various Other Fungi / Acorns / Conkers / Spring Bulbs (Daffodils, Tulips, Crocus, etc.) / Compost / Mouldy Foods / Foxgloves / Adders / Pesticides / Large Amounts Of Apple Seeds / Stones from Plums or Cherries.

IN THE GARDEN SHED

Antifreeze / Herbicides (Plant Killing Chemicals) / Slug Pellets / Creosote / Gloss Paints / Fertilisers
Rodenticides (Rat or Mouse Poisons) / Insecticides / Fuel for Lawn Mowers and Strimmers / White Spirit

OTHER GENERAL POISONS

Batteries / Carbon Monoxide (from faulty boilers or heaters) / Nicotine from Cigars / Potpourri / Cigarettes / Nicotine Gum / E-Cigarettes and Patches / Blue-Green Algae (from Ponds, Streams, Lakes or Estuaries, etc)

SEASONAL CANINE ILLNESS (SCI)

This was identified in 2009 and can affect some dogs taken for walks in woodland between August and September. Symptoms are sickness, diarrhoea and lethargy which typically appears about 72 hours after walking in woodland.

THE ALABAMA DOG ROT

This is an illness caused by allowing your dog to run or play in muddy ponds or streams.

AND IT CAN BE FATAL!

We urge you to please download the pdf's about GDV Bloat) and Alabama Rot
